Part 2: LEA and School Assurances and Waivers

The LEA/Eligible Entity must provide the following assurances in its application. The LEA/Eligible Entity must be able to provide, upon request, evidence of compliance with each assurance.

- ☒ Use its School Improvement Grant to implement fully and effectively an intervention in each Priority school that the LEA commits to serve consistent with the final requirements
- ☒ Establish annual goals for student achievement on the State's assessments in both reading/language arts and mathematics and measure progress on the leading indicators and key school categories. Monitor each Priority school that an LEA serves with school improvement funds, and establish goals (approved by the SEA) to hold accountable Priority schools that receive school improvement funds
- ☒ If an LEA implements a restart model in a Priority school, include in its contract or agreement terms and provisions to hold the charter operator, charter management organization, or education management organization accountable for complying with the final requirements
- ☒ Monitor and evaluate the actions a school has taken, as outlined in the approved SIG application, to recruit, select and provide oversight to external providers to ensure their quality
- ☒ Ensure that each Priority school that an LEA commits to serve receives all of the State and local funds it would receive in the absence of the school improvement funds and that those resources are aligned with the interventions
- ☒ Monitor and evaluate the actions schools have taken, as outlined in the approved SIG application, to sustain the reforms after the funding period ends and that it will provide technical assistance to schools on how they can sustain progress in the absence of SIG funding
- ☒ Collaboration with the Teacher's Union, include letters from the teachers' union with each school application indicating its agreement to fully participate in all components of the school improvement model selected
- ☒ Report to the SEA the school-level data required under leading indicators for the final requirements
- ☒ The LEA and School have consulted with all stakeholders regarding the LEA's intent to implement a new school improvement model.
- ☒ This application has been completed by a team consisting of a minimum of: one LEA central office staff, the building principal, at least two building staff members

The LEA must check each waiver that the LEA will implement.

- ☐ "Starting over" in the school improvement timeline for Priority Title I participating schools implementing a turnaround or restart model.
- ☐ Implementing a school-wide program in a Priority Title I participating school that does meet the 40 percent poverty eligibility threshold.

For the following categories, please demonstrate (1) how the LEA has analyzed specific needs for instructional programs, school leadership, and school infrastructure and (2) justification for the selected interventions for these areas.

Instructional Programs

LEA analysis	<p>Upon review of state and local accountability data, the root cause analysis indicates inconsistent implementation, training and monitoring of instructional strategies.</p> <p>Significant staff turnover and limited training opportunities have created knowledge gaps of instructional strategies/practices focused on engagement, relevance and gradual release.</p>
Justification for Selected Interventions	<p>The data and root cause analysis indicates a strong need to strengthen Tier I CORE instruction. Selected interventions support the enhancement of an instructional framework to be implemented by ALL classroom teachers.</p> <p>The Framework for Intentional and Targeted Teaching advocates a gradual release model which supports student practice and proficiency.</p>

School Leadership

LEA analysis	<p>Upon review of the last five years of student achievement data, it has been determined that the current school leadership will be replaced. Posting for the position will occur after the second round of ISTEP+ administration.</p>
Justification for Selected Interventions	<p>RVMS has received a "D" rating every year since 2005 with the exception of 2010 in which a "C" rating was earned.</p> <p>This track record increases the sense of urgency for leadership change.</p>

School Infrastructure

LEA analysis	<p>School climate / culture issues are pervasive at River Valley. It is an open concept school and a challenging schedule has not benefitted the instructional program.</p> <p>A revised schedule and staffing adjustments are planned for next year.</p>
Justification for Selected Interventions	<p>Staff surveys and interviews validate the need for the anticipated changes.</p>

Part 5: Selection of Improvement Model

Based on our findings of the data sources, the LEA is selecting this model for this school:

☐ Turnaround
 ☒ Transformation
 ☐ Restart
 ☐ Closure

Instructions: Reflect on the data, findings, root cause analysis, self-assessment and the elements of the four improvement models. As a team, reach consensus, as to the model that is the best fit for the school and that has the greatest likelihood, when implemented, to affect principal leadership, teacher instruction, and student learning.

Describe how the model corresponds to the data, findings, analysis and self-assessment and led to the selected model.

The very nature of a "transformative" model indicates behavioral changes. Through the development of the Student Achievement Plan required upon Priority School designation, the school stakeholders validated through data analysis and self assessment the need for significant changes in the 8 turnaround principles: School Leadership, School Climate and Culture, Effective Instruction, Curriculum/Assessment/Intervention Systems, Effective Staffing Practices, Effective Use of Data, Effective Use of Time, and Effective Family and Community Engagement.

Through the development of Teacher/Leader Effectiveness, Increasing Learning Time and Creating Community-Oriented Schools, Implementation of Comprehensive Instructional Reform Strategies, and Operational Flexibility and Sustained Support, it is believed River Valley Middle School can transform into a highly effective educational system.

Describe how the model will create teacher, principal, and student change.

The Transformational Model implemented at River Valley Middle School will create change as follows:

Principal: New principal to be hired who will understand, implement, support and monitor the instructional changes generated through this plan.

Teachers: Teacher training and support through the development of a Teachers' College will provide sustained, ongoing, job-embedded professional development focused on the Framework for Intentional and Targeted Teaching (Fisher and Frey). Teachers will engage in 2 hours of professional development weekly that is facilitated and collaborative to analyze data and plan for instruction. For 8 months, a 3 hour training module will be facilitated for teachers to increase understanding and implementation of the FITT model. Peer walkthroughs will occur on a monthly basis to allow teachers to witness varying interpretations of implementation and to increase understanding and ownership of strategies.

Students: Student expectations and understandings will increase when strategies are implemented consistently throughout their instructional day. Clear, defined expectations of behaviors and achievement goals will guide student work and feedback provided on a regular basis through the FITT model will help clarify student work.

Part 6: Improvement Model

Complete the appropriate intervention model of choice and **attach** with LEA and School Data.

Part 7: LEA Capacity to Implement the Improvement Model

Capacity Task	Yes	No	District Evidence
1. Projected budgets are sufficient and appropriate to support the full and effective implementation of the intervention for three years, while meeting all fiscal requirements and being reasonable, allocable, and necessary.	YES		Greater Clark has a long history of successful grant implementation and sustainability.
2. The LEA and administrative staff has the credentials, demonstrated track record, and has made a three-year commitment to the implementation of the selected model. <i>Turnaround and Transformation models</i> <ul style="list-style-type: none">• Ability to recruit new principals through partnerships with outside educational organizations and/or universities• Statewide and national postings for administrative openings• External networking	YES		Greater Clark has been awarded Innovation Grants worth almost \$3 million and over \$7 million worth of Reading First grants in the past several years.

Part 8: Selection of External Providers

Capacity Task	Yes	No	District Evidence
The LEA has or will recruit, screen, selects and support appropriate external providers. <i>The IDOE will assess the LEA's commitment to recruit, screen, and select external providers by requiring the LEA to document a process for assessing external provider quality which may include, but will not be limited to:</i>			
(a) Interviewing and analyzing external providers to determine evidence-based effectiveness, experience, expertise, and documentation to assure quality and efficiency of each external provider based on each schools identified SIG needs;	Yes		Provider – ASCD for Framework for Intentional and Targeted Teaching Provider – Marge Simic, external evaluator
(b) Selecting an external provider based upon the provider's commitment of timely and effective implementation and the ability	Yes		Commitment outlined in contracts available upon grant award

Part 6: Transformation Model

PRE-IMPLEMENTATION Strategies – Application Year

Describe any pre-grant implementation steps that are being taken during the application year to prepare for Year 1 of SIG.

Principal changes and flexibility	At River Valley Middle School, the current principal has been notified that he will not maintain the principal's position for the 2014-15 school year. Following ISTEP+ administration in early May, the process will begin for recruiting and hiring a new school principal. Qualifications required for the position include a commitment to and understanding of the Transformation Model and ideally significant experience in turning around student achievement levels in a previous position.
Effectiveness of staff and recruitment/retaining of staff	Greater Clark County Schools adopted and has utilized the RISE Teacher Effectiveness Rubric for the last two years. Teachers begin the year with a self-assessment and professional development sessions are personalized to ensure teacher understanding of evaluation expectations.
Building Culture	Greater Clark County Schools Corporation Survey is utilized to determine baseline information for cultural and programmatic decisions. This survey is given during the months of April and May to all students, certified staff, non-certified staff, and families. The results are disaggregated and analyzed to determine action steps.
Professional Development	Contractually, teachers dedicate almost 2 hours per week to job-embedded professional development. During Period 0, which occurs each day prior to students arriving at school, professional development takes place focused on intentional instructional planning, data analysis, and various training needs (ie technology, strategy implementation). In preparation for the grant application/process, staff has engaged in book studies focused on creating a culture of achievement (Fisher and Frey) and are committed to expanding their knowledge base of the gradual release model.
Instructional Programs	A revised master schedule allows for 80 minutes of daily instruction in Language Arts and Mathematics. Additionally, a 30-minute intervention block is provided to students each day. Small group, targeted instruction is provided to students based upon data reviewed from state and local benchmark assessments. Groups are adjusted every 8 weeks as needed – based on new assessment data from progress monitoring opportunities. The balanced calendar implemented by the corporation this year also provides 40 hours of Intersession intervention support and an additional 40 hours of summer school support.
Parent and Community Involvement	Planning and training for student-led conferences will take place during the 4 th quarter of the 2013-14 school year. Attendance at parent/teacher conferences has barely reached 50% of students. Regularly scheduled family nights must be utilized to increase comfort level of families at the school.

SMART Culture Goal - Year 1

All Culture-related Transformation Principles have action steps, person(s) responsible, timeline, and budgeted items clearly described.

By May 31, 2015, River Valley Middle School will demonstrate systemic implementation of school improvement principles through the evaluation of school leadership, teachers, professional development, school climate, and families. Targeted evaluation tools include, but are not limited to: RISE Evaluation of Principals and Teachers, Comprehensive Professional Development Evaluation Tool, and Greater Clark County School's District Survey.

1003g School Improvement Grant Overview

Greater Clark County Schools finds itself in the unusual position of having three identified Priority Schools: River Valley Middle School, Parkview Middle School and Northaven Elementary. This situation has resulted in serious reflection of and adjustment to the continuous improvement model utilized by the corporation.

Our schools have a significant track record of showing growth and improvement. The grant applications are seeking support of the following transformational activities:

1. Provide enhanced leadership through rigorous training on improving Tier 1 core instruction (ASCD's FIT Training / Monitoring Technical Assistance)
2. Provide teacher training focused on improving Tier 1 core instruction through the creation of a Teachers' College with 24 hours of coursework and an additional 36 hours of job-embedded professional development support (ASCD's FIT Training / Instructional Coach / Monitoring Technical Assistance)
3. Provide instructional coaching through the addition of 1 FTE coach to assist with implementation of FIT framework and improve classroom implementation of corporation's 1:1 technology project.
4. Increase classroom supplies / equipment to provide multiplatform and multi-genre environment to increase student engagement and relevancy.
5. Provide late bus service to establish a "No Excuse" environment for students requiring additional time to meet proficiency.
6. Provide outside technical assistance support, monitoring and evaluation of grant implementation.

Greater Clark County Schools has successfully implemented competitive grant awards before (Reading First, Innovation Grants) and we are committed to successfully implementing the 1003g School Improvement Grant with significant results.

Root Cause Analysis Priority Area for Improvement – PAI # 1

Using the provided 2012-2013 student data on the school's A-F Report Card, identify a PAI based on low levels of student proficiency or growth, low graduation rates, or low College and Career Readiness indicators (*You should have two or three PAI's in total*).

I. PAI Focus	(Select One) <input checked="" type="checkbox"/> Student Proficiency (Pass Rate) <input type="checkbox"/> Student Growth <input type="checkbox"/> Graduation Rate <input type="checkbox"/> College and Career Readiness
II. Subject	(Select One) <input type="checkbox"/> Math <input checked="" type="checkbox"/> English/Language Arts <input type="checkbox"/> English 10 <input type="checkbox"/> Algebra I

Developing SMART Goals

Creating S.M.A.R.T. Goals

Specific

Measurable

Attainable

Realistic (or Results Oriented)

Timely

Specific: A specific goal has a much greater chance of being accomplished than a general goal. To set a specific goal you must answer the six "W" questions:

*Who: Who is involved?

*What: What do I want to accomplish?

*Where: Identify a location.

*When: Establish a time frame.

*Which: Identify requirements and constraints.

*Why: Specific reasons, purpose or benefits of accomplishing the goal.

EXAMPLE: A general goal would be, "Get in shape." But a specific goal would say, "Join a health club and workout 3 days a week."

Measurable: Establish concrete criteria for measuring progress toward the attainment of each goal you set.

When you measure your progress, you stay on track, reach your target dates, and experience the exhilaration of achievement that spurs you on to continued effort required to reach your goal.

To determine if your goal is measurable, ask questions such as.....

How much? How many? How will I know when it is accomplished?

Attainable: When you identify goals that are most important to you, you begin to figure out ways you can make them come true. You develop the attitudes, abilities, skills, and financial capacity to reach them. You begin seeing previously overlooked opportunities to bring yourself closer to the achievement of your goals.

You can attain most any goal you set when you plan your steps wisely and establish a time frame that allows you to carry out those steps. Goals that may have seemed far away and out of reach eventually move closer and become attainable, not because your goals shrink, but because you grow and expand to match them. When you list your goals you build your self-image. You see yourself as worthy of these goals, and develop the traits and personality that allow you to possess them.

Realistic/Results Oriented: To be realistic, a goal must represent an objective toward which you are both *willing* and *able* to work. A goal can be both high and realistic; you are the only one who can decide just how high your goal should be. But be sure that every goal represents substantial progress.

A high goal is frequently easier to reach than a low one because a low goal exerts low motivational force. Some of the hardest jobs you ever accomplished actually seem easy simply because they were a labor of love.

Timely: A goal should be grounded within a time frame. With no time frame tied to it there's no sense of urgency. If you want to lose 10 lbs., when do you want to lose it by? "Someday" won't work. But if you anchor it within a timeframe, "by May 1st", then you've set your unconscious mind into motion to begin working on the goal.

Your goal is probably realistic if you truly *believe* that it can be accomplished. Additional ways to know if your goal is realistic is to determine if you have accomplished anything similar in the past or ask yourself what conditions would have to exist to accomplish this goal.

T can also stand for Tangible – A goal is tangible when you can experience it with one of the senses, that is, taste, touch, smell, sight or hearing. When your goal is tangible you have a better chance of making it specific and measurable and thus attainable.

SMART GOALS

Academic Achievement Goals:

1. *Example:* By May 2014, ___ School will raise 3rd grade reading proficiency by 5% (75% Prof./Advanced to 80% Prof./Advanced) as measured by ____.
2. *Example:* By May 2014, ___ School will raise 5th grade math proficiency by 4% (79% Prof./Advanced to 83% Prof./Advanced) as measured by ____.

Goal 1

By the year 2014, 75% of River Valley Middle School students will pass English/Language Arts as measured by ISTEP/IMAST/ISTAR.

Benchmarks

By Spring, 2014, 42.5% of students in the Bottom 25% subgroup will show High Growth in ELA as measured by ISTEP/IMAST/ISTAR.

By Spring, 2014, 36.2% of students in the Top 75% subgroup will show High Growth in ELA as measured by ISTEP/IMAST/ISTAR.

Goal 2

By the year 2014, 80% of River Valley Middle School students will pass Mathematics as measured by ISTEP/IMAST/ISTAR.

Benchmarks

By Spring, 2014, 44.9% of students in the Bottom 25% subgroup will show High Growth in Mathematics as measured by ISTEP/IMAST/ISTAR.

By Spring, 2014, 39.2% of students in the Top 75% subgroup will show High Growth in Mathematics as measured by ISTEP/IMAST/ISTAR.

TURNAROUND PRINCIPLE #1: SCHOOL LEADERSHIP

Ensure that the principal has the ability to lead the turnaround effort. Under the definition of "turnaround principles" in the document titled ESEA flexibility, an LEA that has reviewed the performance of the current principal in a priority school and determined that it would like to retain that principal to lead the turnaround effort must "demonstrate to the SEA that the current principal has a track record in improving achievement and has the ability to lead the turnaround effort" The SEA has the responsibility of ensuring that an LEA has either made this demonstration or replaced the principal for each priority school that is implementing interventions aligned with the turnaround principles.

Strategies must be included for the following:

- Principal must be provided with operational flexibility in the areas of scheduling, staff, curriculum, and budget
- The principal uses data to establish a coherent vision that is understood and supported by the entire school community
- The principal develops and promotes a coherent strategy and plan for implementing the school vision, which includes clear measurable goals, aligned strategies and a plan for monitoring progress and driving continuous improvement.
- The principal uses data to work collaboratively with staff to maintain a safe, orderly and equitable learning environment.
- The principal communicates high expectations to staff, students and families, and supports students to achieve them.
- The principal ensures that a rigorous and coherent standards-based curriculum and aligned assessment system are implemented with fidelity.
- The principal ensures that classroom level instruction is adjusted based on formative and summative results from aligned assessments.
- The principal uses informal and formal observation data and on-going student learning outcome data to monitor and improve school-wide instructional practices and ensure the achievement of learning goals for all students (including SWD and ELLs).
- The principal ensures that the schedule is intentionally aligned with the school improvement plan in order to meet the agreed upon school level learning goals.
- The principal effectively employs staffing practices (recruitment and selection, assignment, shared leadership, job-embedded professional development, observations with meaningful instructional feedback, evaluation, tenure review) in order to continuously improve instructional and meet student learning goals.
- The principal uses data and research-based best practices to work with staff to increase academically-focused family and community engagement.

TURNAROUND PRINCIPLE #2: SCHOOL CLIMATE AND CULTURE

Establish a school environment that supports the social, emotional, and learning needs of all students. To determine which non-academic services or activities will be appropriate and useful under this principle, an LEA should examine the needs of students in a priority school. Based on the results of that examination, an LEA might choose to carry out a number of activities to address emotional, and health needs; implementing approaches that improve school climate and discipline such as implementing a system of positive behavioral interventions and supports or taking steps to eliminate bullying and student harassment; or initiating a community stability program to reduce the mobility rate of students in the school.

Strategies must be included for the following:

- The school community supports a safe, orderly and equitable learning environment.
- The school community maintains a culture that values learning and promotes the academic and personal growth of students and staff.
- High expectations* are communicated to staff, students and families; students are supported to achieve them.

*Expectations of professionalism, instruction, communication and other elements of the school's common teaching framework to staff; Expectations of attendance, academic performance, behavior, postsecondary attainment, etc. to families

TURNAROUND PRINCIPLE #3: EFFECTIVE INSTRUCTION

Ensure that teachers utilize research-based, rigorous and effective instruction to meet the needs of all students and aligned with State Standards. As part of meeting the turnaround principle regarding strengthening the school's instructional program based on student needs, and LEA may choose to improve the school's kindergarten or preschool program so that it is research-based, rigorous, and aligned with State Standards.

Strategies must be included for the following:

- Teachers ensure that student-learning objectives are specific, measurable, attainable, realistic and timely, and are aligned to the standards-based curriculum.
- Teachers use multiple instructional strategies and multiple response strategies that actively engage and meet student learning needs.
- Teachers use frequent checks for understanding throughout each lesson to gauge student learning, and to inform, monitor and adjust instruction.
- Teachers demonstrate necessary content knowledge.
- Teachers demonstrate the necessary skills to use multiple measures of data, including the use of diagnostic, formative and summative assessment data, to differentiate instruction to improve student achievement.
- Teachers hold high expectations for all students academically and behaviorally as evidenced in their practice.

PAI Addressed	Interventions/Action Strategies	Driver	Timeline	Evidence	Status
1,2,3,4	Teachers post lesson purpose on board in student-friendly language and orally review at the start of every lesson. TURNAROUND PRINCIPLE #4: CURRICULUM, ASSESSMENT, AND INTERVENTION SYSTEM

Ensure that teachers have the foundational documents and instructional materials needed to teach to the rigorous college- and career-ready standards.

Strategies must be included for the following:

- The district or school curriculum is aligned with the Common Core Ready State Standards (CCRSS).
- Teachers and school leaders collect classroom level data to verify that the adopted and aligned CCSS curriculum is the "taught" curriculum.
- The district provides formative assessments in literacy and math to enable teachers to effectively gauge student progress and inform instructional decisions at the classroom and team levels.
- Instructional materials and resources are aligned to the standards-based curriculum documents.
- An intervention plan designed to meet the learning needs of students who are two or more years behind in ELA and Mathematics is planned, monitored and evaluated for effectiveness based on defined student learning goals.

TURNAROUND PRINCIPLE #5: EFFECTIVE STAFFING PRACTICES

Develop skills to better recruit, retain and develop effective teachers.

Strategies must be included for the following:

- Hiring timelines and processes allow the school to competitively recruit effective teachers.
- School leadership uses teacher evaluation to provide feedback for improving classroom practices, informing professional development and increasing learning outcomes
- Teachers are provided professional development that enables them to continuously reflect, revise, and evaluate their classroom practices to improve learning outcomes in both a structured collaborative setting and individually.
- Staff assignment is intentional to maximize the opportunities for all students to have access to the staff's instructional strengths.

1,2,3,4	Annual review of student data guides decision making re: staff placements and course assignments.	Principal Asst. Principal Teachers	May 31, 2014	Staffing Plan Master Schedule	Pending

TURNAROUND PRINCIPLE #6: ENABLING THE EFFECTIVE USE OF DATA

Ensure the school-wide use of data focused on improving teaching and learning. Examples of data that an LEA may consider include: student outcome data, such as student achievement data, graduation rates, dropout rates, student attendance rates, percentage of students completing advanced coursework, discipline incidents, truants, distribution of teachers by performance level on the LEA's teacher evaluation and support system, and teacher attendance rate. An LEA may also wish to examine the results of formative or interim assessments to help improve classroom instruction.

Strategies must be included for the following:

- Multiple forms of data are presented in user-friendly formats and in a timely manner to drive all decisions for improving climate and culture.
- Multiple forms of data are presented in user-friendly formats in a timely manner to drive all decisions for improving student achievement.
- A specific schedule and process for the analysis of on-going formative assessment data tied to the CCRSS aligned curriculum that includes the specific goals for improvement, defined strategies, progress monitoring and evaluation.

PAI Addressed	Interventions/Action Strategies	Driver	Timeline	Evidence	Status
1,2,3,4	Utilize data from Acuity, Star, ISTEP, GCW's. This should take place during the grade level collaboration meetings. 1,2,3,4	Analyze SWIS data to address behavioral issues.	Principal Asst. Principal Teachers	Quarterly	Analysis Forms	ongoing

TURNAROUND PRINCIPLE #7: EFFECTIVE USE OF TIME

Redesign time to better meet student and teacher learning needs and increase teacher collaboration focusing on improving teaching and learning. An LEA has flexibility in determining how to meet the turnaround principle regarding redesigning the school day, week, or year in a priority school. An LEA should examine the current use of time in the school and redesign the school day, week, or year based on the particular needs of the school. For example, an LEA may choose to add time to the school day or add days to the school year. However, an LEA is not required to add time; it may also redesign the school day by for example, moving to block scheduling to reduce transition time between classes and increase instructional time.

Strategies must be included for the following:

- The master schedule is clearly designed and structured to meet the needs of all students.
- The master schedule is clearly designed to meet the intervention needs of all students who are two or more years behind in ELA or Mathematics.
- The master schedule is clearly structured and designed to meet the professional development needs of staff.

1,2,3,4	Read 180 provided for students below and well below grade level	Principal, Asst. Principal, AIC, SPED	2013-2014	Master Schedule	Completed

TURNAROUND PRINCIPLE #8: EFFECTIVE FAMILY AND COMMUNITY ENGAGEMENT

Increase academically focused family and community engagement. An LEA might conduct a community-wide assessment to identify the major factors that significantly affect the academic achievement of students in the school, including an inventory of the resources in the community and the school that could be aligned, integrated, and coordinated to address these challenges. An LEA might choose to establish organized parent groups, hold public meetings involving parents and community members to review school performance and help develop school improvement plans, use surveys to gauge parent and community satisfaction and support, implement complaint procedures for families, coordinate with local social and health service providers to help meet student and family needs, provide wraparound services for students, or provide parent education classes (including GED, adult literacy, and EL programs).

Strategies must be included for the following:

- Families are engaged in academically related activities, school decision-making, and an open exchange of information regarding students' progress in order to increase student learning for all students.
- Community groups and families of students who are struggling academically and/or socially are active partners in the educational process and work together to reduce barriers and accelerate the academic and personal growth of students.

The staff members communicated that they felt supported by the district and the leadership in the building, although felt that there wasn't always an option to personally choose what they wanted to do because of the 2008 PD budget cuts. Also, they indicated that it was difficult to attend PD at the district building during the day because of the loss of instructional time with their students.</p> <p>The area that staff and leadership indicated as an area in need of improvement is family and community engagement. With the TP teams that are in place, they are hoping to get many things started and improved to enhance their engagement with the school community. There has been feedback from parents that they do not feel very welcome in the building and when they call they are told there is not anything for them to help with at the time. Also, there is a lack of updated information on the website as far as events and happenings. This may be due to the new design and the miscommunication of who will be responsible for the updates.</p> <p>We discussed the open concept classrooms and, while the teachers have done well to adapt, the distraction for the effective teaching and learning is very apparent.</p> <p>The IMPACT time every morning is now more focused on individual student growth, with all students in a group based on their needs. The staff members all stated that they thought this was an important change that they are supporting because it allows for intentional teaching and a true focus on individual student success.</p>

Suggested Action Steps	
TP#1	<ul style="list-style-type: none"> -Continue to use walkthroughs and evaluation tool to support teacher effectiveness, coach and develop -Continue to provide clear communication with expectations for staff -Solicit reflections from staff to assist in building decisions
TP#2	<ul style="list-style-type: none"> -Continue to support staff with PD and time to reflect -Continue work to develop handbook and common behavior expectations with the staff -Create a "celebrate staff" committee (TP Team #2?) to find creative (free) ways to recognize and celebrate staff members -Continue to offer PD, book studies, etc. to help with the relationship building between staff and staff students -Consider creative ways to display student work in the classrooms and building
TP#3	<ul style="list-style-type: none"> -Continue to review and support teachers with using and planning with the CCS. - Provide time and opportunities for reflection and "digging deeper" on PD topics -Encourage and offer support for teachers to use differentiation in their classrooms to engage all learners at their level
TP#4	-Use the flexibility that you will have next year to develop your assessments for the GCW in order to assess and use the data more effectively
TP#5	-Continue to use walkthroughs and evaluation tool to support teacher effectiveness, coach and develop
TP#6	-Continue to dig into data and encourage teachers to look at their own assessments specific student data to plan for differentiated activities in the classroom
TP#7	<ul style="list-style-type: none"> -Continue to use data to individualize student instruction and utilize the IMPACT time effectively -Continue focused and intentional planning with teachers

Fisher and Frey's FIT Teaching™

WHAT IS FISHER AND FREY'S FIT TEACHING?

The Framework for Intentional and Targeted (FIT) Teaching is based on the work of Dr. Doug Fisher and Dr. Nancy Frey. The four essential elements of FIT Teaching provide teachers with the tools and skills to insure that high-quality teaching and learning occurs in every classroom.

THE FOUR ELEMENTS OF THE FRAMEWORK FOR INTENTIONAL AND TARGETED (FIT) TEACHING

I. School and Classroom Culture: School culture—the actions, traditions, symbols, ceremonies, stories, and rituals that reflect the school's mission—is equally important to the academic success of each student as is the explicit academic curriculum of a school. An effective school operationalizes its mission by integrating academic outcomes with a positive school culture.

Fisher and Frey's Five Pillars of Creating a Culture of Achievement

- I. Welcome: This pillar asks, "Do stakeholders feel welcomed?" Understand what organizational theorists refer to as "the experience economy" and how important this is to a school's success.
- II. Do No Harm: This pillar puts adults in the position of teaching students to assess their actions as appropriate or not, based on an ethical standard rather than adherence to a set of rules.
- III. Choice Words: This pillar represents the importance of choosing words carefully so that messages students receive build positive students' identities.
- IV. Its Never Too Late to Learn: This pillar presumes competence from the beginning of a learning experience and allows for errors and mistakes as a natural part of the learning process.
- V. Best School in the Universe Pillar: This pillar promotes a school mission that embraces routine systemic reflection, conditions that create and support the best place to work and to learn and service cycles and service recovery

ASCD PD Online

PD Online courses help educators address individual and group professional development needs with:

- Flexible courses design that support personal professional development needs.
- Job-embedded applications that link course materials to real-world practice.
- Assessment that measure results at the beginning and end of each course.
- Innovative design that makes training and implementation simple.
- Credit hours equal to at least 10 seat hours. Many states, districts, and universities allow courses to apply toward CEU or college credit.

ASCD Publications

ASCD publications are recognized for their depth of insight and relevance to the lives of educators. This is because so much of our content is written by educators themselves—professionals at all levels who can deeply about the success of all learners and are eager to share their knowledge with colleagues throughout the world.

ASCD PD in Focus

PD in Focus is an essential on-demand professional development system that provides online access to ASCD's extensive library of videos demonstrating effective teaching practices. Designed especially for professional learning communities, schools, and districts, PD in Focus connects research-based practices with real-life examples of effective classroom instruction. Features include:

- A concise classroom creator
- Group discussion boards
- Enhanced assignments capabilities
- Rotated reporting

About ASCD

Founded in 1943, ASCD (formerly the Association for Supervision and Curriculum Development) is the global leader in developing and delivering innovative programs, products, and services that empower educators to support the success of each learner. Comprising 140,000 members—superintendents, principals, teachers, principals, and advocates from more than 130 countries—the ASCD community also includes 66 affiliate organizations. The nonprofit's diverse, multinational membership is its greatest strength, providing a powerful, unified voice to decision makers around the world.

The association recruits expert and innovative solutions in professional development, capacity building, and educational leadership essential to the way educators learn, teach, and lead.

ASCD's Mission

ASCD is a global community dedicated to excellence in learning, teaching, and leading. ASCD's innovative solutions promote the success of each child.
